

Appointment Information for March 2025

We're working hard to look after our community. Here's what we've been doing in March.

- Our GPs provided 2,449 appointments for patients
- Our nurses delivered 1,599 appointments
- Our health care assistants have seen 1,274 patients
- That's a total of 5,322 appointments!

- This is equivalent to 32.9% of our patient population seen in December.
- Patients did not attend for their appointments 287 times which equates to 71.75 hours (almost 7 days) of lost appointment time. This cost the NHS £11,480 – for 1 month!
- Our Reception team took **8,943** calls. Calling at quieter times will reduce your waiting time
